

Certificate of Conformity (CoC) for Morocco

Applus+ assists exporters in obtaining the Certificate of Conformity (CoC) required by Moroccan authorities, ensuring compliance with the country's quality and safety regulations for smooth market access.

Who Requires a CoC for Morocco?

Manufacturers and exporters intending to ship regulated goods to Morocco are required to conduct local verification processes. They must coordinate with an Inspection Body authorized by the Moroccan government, such as Applus+, to acquire a Certificate of Conformity (CoC) before exporting their products to Morocco.

What Is the Verification of Conformity (VoC) programme for Morocco?

Recently, Morocco has made significant changes to its market access conditions. A wide range of products now must prove compliance with the country's quality and safety regulations.

To enforce this, the Moroccan authorities have established a Verification of Conformity (VoC) programme aimed at ensuring products meet current regulations. Failure to demonstrate compliance can result in shipment rejection at the port of entry.

What Products Are Covered Under the CoC Scheme?

The CoC scheme applies to a wide range of products, including but not limited to:

- Electrical appliances
- Other electrical products

- Construction materials: pipes, sheets, sanitary equipment, insulation, wooden panels, cement, windows, glass, etc.
- Gas/oil appliances
- Products for children: toys, baby baskets, diapers, furniture, etc.
- Textiles: shoes, leather goods, clothing, etc.
- Chemical products: detergents, paint, bitumen, matches, lighters, etc.
- Plastic products: plastic packaging, bags, etc.
- Products in contact with food: kitchenware, crockery, etc.
- Personal Protective Equipment (PPE): motorcycle helmets, etc.
- Automotive spare parts: tires, automotive parts, etc.

How Do I Get a CoC for Morocco?

Applus+ offers a complete Verification of Conformity (VoC) service to help clients understand the rules and regulations and ensure compliance. Our approach includes:

- **Review of Technical Documentation:** We assess product parameters, labeling, and user manuals (in Chinese, English, and Arabic) to ensure they meet Moroccan regulations.
- **Confirmation of Applicable Rules and Regulations:** We verify the specific regulations applied to the product category under the CoC scope.
- **On-site Inspection:** Our team conducts inspections of products at the client's factory or warehouse to assess conformity.
- **Drafting of Inspection Report and CoC:** We prepare the inspection report and the Certificate of Conformity for client review.
- **Issuance of Final Documents:** The final CoC is sent via email, enabling importers to upload it to the Moroccan PortNet system for customs clearance.

Why Choose Applus+ to Obtain a CoC for Morocco?

Applus+ is a global leader in testing, inspection, and certification, with over 22,800 employees operating in up to 70 countries. Our Laboratories division is a benchmark in Europe for testing and certification. We have our own versatile network of laboratories and unique facilities, as well as operational teams able to conduct on-site inspections.

By choosing Applus+, you benefit from:

- **Expertise in Moroccan Regulations:** Our team is well-versed in the latest Moroccan standards and regulations, ensuring your products meet all necessary requirements.
- **Comprehensive Services:** From documentation review to on-site inspections and final certification, we provide a complete solution for obtaining the CoC.
- **Global Presence:** With offices and laboratories worldwide, we can assist exporters from any country.
